PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building web applications, REST APIs, and containerized microservices with React.js, Angular, TypeScript, Go, and Node.js. Hands-on experience with AWS, Docker, Kubernetes, Ansible, shell automation, and CI/CD, plus Kafka-based event-driven systems, in Agile teams.

TECHNICAL SKILLS

Frontend React.js, Angular, TypeScript, JavaScript, HTML5, CSS3

Backend and APIs Go (Golang), Python, Node.js, RESTful APIs, Microservices, Event-Driven Architecture

Databases and Messaging MongoDB, Apache Kafka

Testing and Practices JUnit, Unit and Integration Testing, Agile/Scrum, Code Review, Git

Also familiar with Vue.js, Express.js, Java, Spring Boot, C++, MySQL, Azure, Jest, Playwright, TDD, Data Structures and Algorithms, OOP, SOLID Principles, Design Patterns

CLOUD, DEVOPS AND AUTOMATION EXPERIENCE

- **AWS (EC2, S3, IAM, CloudWatch)** — deployment, monitoring, and infrastructure *Kyndryl 2024 – Present*
- **Docker and Kubernetes** — containerized Go microservices; dashboard project *Kyndryl 2024 – Present*
- **Git and CI/CD pipelines** — application delivery and deployment workflows *Kyndryl 2022 – 2024*
- **Ansible** — Linux, UNIX, Windows server configuration and deployment *Kyndryl 2022 – 2024*
- **Shell Scripting, Linux, Unix** — deployment and maintenance automation; VM support *Kyndryl 2022 – 2024*
- **Apache Kafka, MongoDB** — event-driven Go microservices; monitoring tool project *Kyndryl 2024 – Present*

PROFESSIONAL EXPERIENCE

Kyndryl Solutions Private Limited — Chennai, India

Senior Associate, Software Engineer Apr 2024 – Present

- Build full-stack features with React.js, Angular, TypeScript, Go, and Python, creating reusable UI components and integrating frontends with backend services through REST APIs.
- Develop containerized Go microservices with Docker, Kubernetes, MongoDB, and Apache Kafka, and deploy and monitor them on AWS.
- Write JUnit unit and integration tests; contributed to migrating applications to the latest UI framework version.

Associate Software Engineer Jul 2022 – Mar 2024

- Developed responsive Angular and TypeScript web applications; took part in sprint planning, code reviews, and defect resolution.
- Automated Linux, UNIX, and Windows server configuration and deployment with Ansible, scripted routine operations in shell, and delivered through Git and CI/CD pipelines.

KEY PROJECTS

Bridge Platform (Kyndryl) Dec 2025 – Present

React.js · TypeScript · REST APIs

- Developed searchable dropdowns and sortable, paginated data tables for large datasets, with REST API integration and reusable components, delivering features and fixes with cross-functional teams.

Inventory Service (Kyndryl) Jan 2024 – Dec 2025

React.js · TypeScript · REST APIs

- Built paginated, sortable data tables with search, filtering, and show/hide columns for large datasets.

System Monitoring and Automation Tool Oct 2023 – Dec 2023

Node.js · MongoDB · Apache Kafka · Ansible · Shell Scripting · Linux

- Built services for centralized log collection and event processing, with REST APIs for system health metrics.
- Automated deployment, configuration, and maintenance with Ansible and shell scripting, improving deployment efficiency by approximately 40%.

EDUCATION

B.Tech in Information Technology 2018 – 2022

Anna University – Madras Institute of Technology, Chennai, India
